

# We create online marketing campaigns that work. Period.

## Top-Performing Properties:

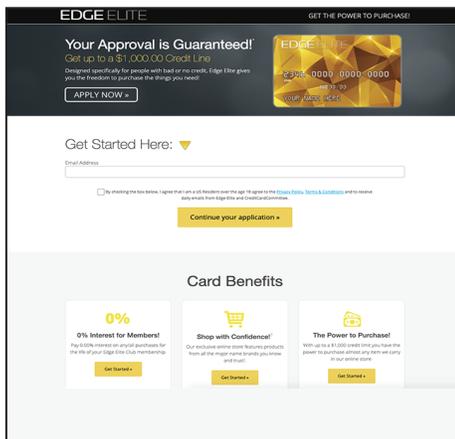

### MoneyFinder USA

Consumers get access to resources that can help find unclaimed money.

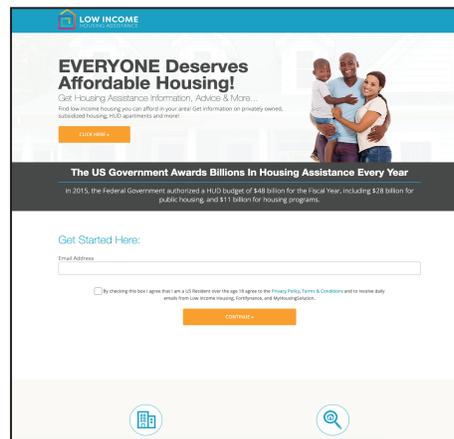

### Simply Cellphones

Through the Lifeline Assistance Program, users may qualify for a free cellphone.

### Edge Elite

Designed specifically for people with bad or no credit, Edge Elite gives consumers the freedom to purchase the things they need.

### Low Income Housing

Users receive information on privately owned, subsidized housing, HUD apartments and more.

## WHO WE ARE:

Our team has been marketing online to deliver measurable results to markets since 1998.

## WHAT WE DO:

Spark Revenue is a leading online lead generation company specializing in the coupon vertical. We provide advertisers with strategic direction, custom built creative and increased online distribution in order to maximize revenue. We offer a complete turn-key solution, including technology, business development, re-creation of current marketing offer (addition and fulfillment of premiums, bundling to increase revenue per acquisition, etc.), optimization of landing pages, with the creation of highly responsive banners and email creative - all on a pay-for-performance basis.

## WHO WE WORK WITH:

Our Marketing Partners are typically established direct-response marketers who are looking to significantly increase their market share, or launch a new product or subscription based service. Because we work only with a select group of publishers, you get the highest quality leads and premium distribution for your offers.
